FIRE AT WATERBURY: LOSS \$2,000,000,

Large Section of the Business Part of the City Was Destroyed.

FIRE FIGHTERS POWERLESS.

Flames Jumped From Building to Building Under a Stiff Preeze-Special Train Brought Help.

Waterbury, Conn., Feb. 2.-The most disastrons fire in the history of Waterbury broke out in the heart of the city shortly before 6:30 this evening. A large section of the business part of the city has already been wiped out, and in the high wind prevailing there is little hope of saving what still stands in that part of the business section south of Exchange place.

The fire originated in the upholstery de partment on the third floor of the store of the Reld & Hughes Dry Goods Company at No. 108-112 Bank street, and that store as well as many adjoining buildings are smold-

DAMAGE MAY REACH TWO MILLION DOLLARS.

Shortly after midulght the fire, which had seemed to be nearly under control, had at-tacked buildings on the south side of Bank and telephone and telegraph lines are down street and again raged furiously It is now thought \$2,000,000 will be a con-servative estimate of the loss. A special train with fire engines from New Haven has arrived.

The origin of the conflagration is not known. The fire was not discovered until it had gained tremendous headway. BREEZE-FANNED FLAME

The fire started in a drizzling rain, with a rapidly rising wind, and, with the in-creasing cold, the rain turned to snow. The wind was at first shifting, but it settled toward the east and carried destruction with it. The first building to catch from the Reid & Hughes company store was a tall structure to the westward occupied by the Salvation Army barracks and a Turkish bath. A moment or two later the flames leaped back to the eastward across Bank street and wiped out the Ryan & Fitzmaurice block, Gannon & Webster's drug store, Davis's eigar store and the store of J. B. Mullings & Sons. They burned rapidly through to South

Main street, jumped across that street, shriveling buildings like paper. At the same time the flames caught the Masonic Temple and traveled from the Salvation Army building to the rear of the Franklin House, on Grand street, and the entire block, consisting of seven or eight handsome five-story buildings, with thirty tene-ments and the large and commodious head-quarters of the Waterbury American, were in ruins before midnight. After 9 o'clock the militia was called out to preserve order. PARTIAL LIST OF
